Importance of Breakfast Lesson

Day 1:

Intro Activity: Divide students into small groups of 3 or 4 and give each group an article pertaining to breakfast. Students are to read this article and complete the following on their poster that will be shared orally with the group.

In your group:

A. Read the article
B. Make a poster that includes the following:
   a. The title and author
   b. 5-7 important facts from the article
   c. 3-4 pictures to represent 3-4 of the facts listed on the poster (symbolic is okay)
C. Present the poster—use loud, clear voices and take turns explaining the different elements of the poster.

Day 2:

Share Posters orally and then view the following video clip that illustrates what happens when we don’t eat breakfast. View:
http://kickinkitchen.tv/episode/no-breakfast-no-bueno
and then complete the following activities.
**Review Activity: True or False Game**

Pass out manila folders to students. Half of the folders will have the below T/F statements written on them and the other half will have either a True or a False written on them. Students who have statement folders must read the statements aloud and when all have read students must stand, mingle and the True/False folder people must find a statement whose answer reflects their folder. Go over answers and discuss reasons.

1. Breakfast eaters often perform better on tests than those that don’t eat breakfast. **True** or **False**

2. People trying to lose weight often skip breakfast. **True** or **False**

3. Students who skip breakfast are more likely to maintain weight than breakfast eaters. **True** or **False**

4. People who eat breakfast usually have more energy than people who skip breakfast. **True** or **False**

5. People who skip breakfast often have better memory and concentration skills than those who eat breakfast. **True** or **False**

6. People who eat breakfast often have a better disposition and get along better with others than those that don’t. **True** or **False**

7. Students who eat breakfast are more likely to get head aches and stomach aches in that morning than breakfast skippers. **True** or **False**

8. Candy, chips, and soda are excellent breakfast foods. **True** or **False**

9. Breakfast eaters are more likely to get their nutrients for the day than those who skip breakfast. **True** or **False**

10. Skipping breakfast is a common habit but can be changed with practice. **True** or **False**

11. Breakfast is the most important meal of the day. **True** or **False**

**Activity:** Complete the Breakfast Sort worksheet for a grade.

**Day 3:** **Project:** Five Days of Easy & Nutritious Breakfasts (Either alone or with a partner.)

**Day 4:** Prepare a healthy breakfast in the lab.

Kim Graybill/2013
Five Days of Easy & Nutritious Breakfasts

Develop five days of easy, nutritious breakfast meals that can be made in under minutes and includes at least 3-5 food groups from MyPlate. Use the internet and Pinterest to help you find ideas. Write or type up your menu plans using the following format. Day 1: Title of Breakfast Meal

- Include time needed to prepare
- Identify all food groups used in meal
- Cite your source

Example:

Day 1: Whole wheat toast with peanut butter and banana slices
- Prep Time=5 minutes
- Toast=Grains, Bananas=Fruit, Peanut Butter=Protein
- http://www.food.com/recipe/peanut-butter-banana-toast-95711

Rubric:

5 Days of Meals with Prep Times within 15minutes ____/10
Sources of Meal Ideas Cited ____/5
Each meal includes 3-5 different food groups ____/15
Total Points ____/30
Breakfast Sort
