

Using the randomly assigned "Ask Mavis" prompt, collaborate with your group to rework and consolidate answers from each person to create the "BEST" solution/response to the dilemma. Create a single flash slide that includes the following:

- Group Member Names & Highlight Color Key
- A fun numerical image of the dilemma # you are responding to
- The NEW response with each person's contribution highlighted in a different color. Ex. Person #1 (yellow highlight), Person #2 (green highlight) and Person #3: (pink highlight)

Be prepared to share your flash slide with the class!
