

## BIZARRE MYSTERY FOOD PROJECT

Choose a bizarre mystery food and find an amazing fact, feature or something about the food that your peers will find fascinating! It should be bizarre, interesting, and make your classmates curious. Present questions about your “bizarre mystery food” and see if your peers can guess what food it is!

1. Choose a bizarre mystery food. Get it approved as there will be no duplicates.  
Food: \_\_\_\_\_ Teacher Approved: \_\_\_\_\_
2. Search for interesting physical features about the food. You can also find fascinating things about the foods such as how it’s eaten, cooked, where it’s found, etc. Is there anything unusual or dangerous about this food that would be interesting to know or be aware of prior to consuming?
3. Find a photo of this food and think of 2-3 “I’m Curious About...questions that come to mind when you see it. Make sure you find the answer in your research before you continue. You will also need to use Google Maps to show where this food originates or can be found.
4. Use the Google Slides Template to present your mystery food to the class. You will use the template to show your bizarre mystery food and do a mini oral presentation on it
5. Submit finished slides via Google Classroom. Place the rubric in the basket for grading.
