

# FOODBORNE ILLNESS DID YOU KNOW?

You will be assigned a foodborne illness to create a “Did You Know...?” poster. Each poster needs to include:

- Topic Fact & Information
- Statistic Associated with the Topic Fact/Information
- Appropriate Picture (you will need to print this off)
- No Spelling/Grammar Errors

All posters need to fit on 9 x 12 construction paper. All writing needs to be legible and large enough to read from a distance.

Did You Know...

**That people can be hospitalized and even die from foodborne illness?**

The Center for Disease Control (CDC) estimates that millions of people in the United States get sick from foodborne illness every year!

The CDC records indicate that approximately 128,000 people (1 out of every 6) are hospitalized and 3,000 people die from something that can often be prevented!

**Possible FBI Topics**
