

The Inside Story of Frozen Pizza

Step 1: Name of the Product: _____

Step 2: Use the photocopy of ingredients for the frozen pizza and highlight every ingredient that is not food. Foods are wheat, sugar, oil, etc. If you are not sure, ASK!

Step 3: Now...divide up the list and you and your partner look up each of the highlighted ingredients and find out what it is and why it's in food (function or purpose) and any other interesting information you can find, and write it in your own words on composition paper. A helpful website: <http://whatisthatingredient.com/> Example:

BHT: An additive used to preserve fats in food and keep them from going rancid. It is made from flammable substances and chemicals that attract mosquitos.

Step 4: Create a visual of the information you found about the ingredients in your frozen pizza. Title your visual "The Inside Story of Frozen Pizza" and surround the picture of your frozen pizza with the non-food ingredient information your researched frozen pizza contained.

Step 5: Staple your highlighted ingredients list and researched ingredients information to this rubric.

Rubric:

Criteria	Present	Not Present
Title & Picture Included (5)		
Detailed Non-Food Ingredient Descriptions (20)		
Free of Spelling & Grammar Errors (5)		
Researched Notes & Hi-lighted Label Included (10)		
Total Points: (40)
